CERTIFICATION COST

The Comité Français de la Protection Cathodique (CFPC) offers the industrialists a system of certification of the specialized personnel in Cathodic protection. Like any service, the various services of CFPC (training and examination centres approval, exams organisation) have a financial cost in order to compensate the expenses of organization, management and certification follow-up.

The mentioned costs do not include the training cost. If you wish to know those costs, thank you to directly ask the training Centers.
